

AquaSynergy

Specialist in sales and service of submersible and end suction pumping equipment.

Servicing the needs of the Municipal, oil and gas, resource mining and irrigation industries across Australia.

About Us

Aqua Synergy has been operating as a motor and pump service centre in Western Australia for over ten years. The company has new owners and management team. We are focused on offering an improved service to current and prospective customers.

Our Service

- In our fully equipped workshop Aqua Synergy is able to rewind and service all submersible motors and carry a comprehensive inventory of spare parts.
- Service to brands such as Hitachi, Emu-Wilo, Pleuger, Mercury, Haywood Tyler, Byron & Jackson and Franklin is just a part of our skills.
- The repair and overhaul of submersible multi stage and centrifugal pumps with the added benefit of full load duty testing.
- Aqua Synergy has **service exchange motors and pump sets** in stock, offering real savings on downtime and capital expenditure.

Give us a call and our experienced and qualified team will assist you with your current or future needs.
